

## HTTP Status Codes

Be familiar with HTTP status codes and its purpose. You don't need to memorize every single error code; rather, be familiar with the categories 1xx, 2xx, 3xx, 4xx, 5xx and what they represent.

Here is a short article from w3 org that gives a crisp introduction to the topic.

<https://www.w3.org/Protocols/rfc2616/rfc2616-sec10.html>
